

Member Newsletter #2

18th May 2024

Great news! Our second Members' Newsletter is short but important.

The Site at Marelands Field

We explained in our first Newsletter the decision to proceed with the option on this site. As of 13th May, Farringdon Village Hall CIO has bought the land on which to build a new village hall and it is now an asset of the charity.

Planning Application SDNP/22/01621/FUL

We have received feedback from the EHDC Case Officer on our planning application. They fed back their concerns on the quality of and the response to the community engagement and what seemed the excessive size of the proposed village for a relatively small community. This is a positive outcome as it starts the dialogue and clearly tells us what we need to address to move us to getting an application approved.

We'll shortly be meeting with our architects and the EHDC Case Officer.

Again, we would welcome your direct involvement, especially Members' thoughts on what a smaller village hall could look like and provide. Please contact us at trustees@farringdonvillagehall.org or via the [website](#) link.
